- Microsoft Excel
- Microsoft Power BI
- Microsoft SQL
- Microsoft Office

About myself

Industrial Engineering student at Hacettepe University with hands-on experience in lean manufacturing, ERP systems, and production resource management. Experienced in process improvement, workflow automation, and cross-functional coordination. Analytical, adaptable, and eager to contribute to operational excellence in dynamic environments.

Education & Training

Hacettepe University — 09/2021 - Current

Industrial Engineering (100% English Education) | Ankara, Türkiye

Student Volunteer — 06/2017 - 06/2017

World Petroleum Congress | Istanbul, Türkiye

Website: https://www.wpcenergy.org/

Work experience

Candidate Engineer — 17/11/2025 - Current

Turkish Aerospace Industries | Ankara, Türkiye

-Conducted data analysis and reporting activities within ERP processes.

-Analyzed capacity and resource utilization data using Power BI, SQL, and Excel, and supported data validation and planning processes.

Production Intern — 21/07/2025 - 15/08/2025

Sirena Marine | Bursa, Türkiye

-Supported composite and assembly processes in luxury yacht production, gaining hands-on experience in integrated manufacturing and quality control.

Candidate Engineer — 19/08/2024 - 04/07/2025

Megart Technology | Ankara, Türkiye

-Defined materials within the ERP system to improve warehouse inventory tracking.

-Promoted 5S and Kaizen methodologies to enhance workshop efficiency.

Lean Manufacturing Intern — 20/06/2024 - 20/07/2024

Forvia Faurecia | Bursa, Türkiye

-Developed DLE boards to track production efficiency, bridging the gap between management and production teams.

-Designed a workflow diagram to visualize the production process from raw material to final output.

International Exchange Student — 06/2023 - 10/2023

InterExchange | Boston, United States

-Worked in the U.S. for three months, gaining international experience.

-Improved English communication skills while adapting to a multicultural environment
